

Computing Your 2026 Pledge Amount

THREE EASY STEPS

to Compute the Amount of Your 2026 Pledge:

1. **Write down the amount of your expected 2026 income.** It's fine to use before-tax or after; you decide. If you don't know how much your **2026** income will be, make a guess, or simply make a pledge based on your current year's income. Don't worry too much about this number. If your circumstances change, you can always adjust the amount of your pledge up or down.

2. **Pick a percentage.** Are you new to the idea of proportional giving? Try using the national average of 2.6%. Or if you have been giving for a while, take last year's percentage and try adding 1% to it. The biblical standard of 10% (the *tithe*) is referenced more than 60 times in the Bible and is taught as a basic standard in the Episcopal Church. Many work their way up to a tithe, or even beyond, over a period of several years.

3. **Multiply** your income by the percentage you select. This is your pledge for **2026**. If you want to give in weekly installments, divide your total by 52, or if you wish to give monthly, divide by 12.
